Forward Thinking

Building resilience and putting sustainability at the heart of your future facing business

Forward Thinking is a one-day interaction exploring the nature of a futures focussed business approach. Uniting industry delegates with academics from the School of Business and Technology the programme will explore disruptions and developments, inviting you to consider new ways to foster resilience and promote success.

Wednesday 15 May 2019
9.30am-4pm

University of Gloucestershire
School of Business and
Technology, Gloucester

Forward Thinking is a LIFT funded project

Whatever the size of your business, or the nature of your industry, it has never been more important to take a dynamic approach to future planning. What are the challenges facing producers and consumers in the next decade? How can we adapt to create resilient organisations? And how should sustainability inform our decision-making processes?

Time	Programme
9.30	Registration
10.00	Welcome Professor Kamal Bechkoum, Head of School of Business and Technology
10.15-11.00	Keynote Session - Perspectives on Sustainability Veronica Heaven, Founder and Director of The Heaven Company
