Landscape Architecture

## POST GRADUATE LANDSCAPE ARCHITECT

Greenhalgh Landscape Architecture create intelligent and enduring landscapes that respond to their context and the people who use them. Our design approach is contemporary whilst considerate. We are thoroughly inspired by the surrounding landscape. We embrace technology and new concepts that contribute to creating a permanent and quality legacy.

Based in Bath, we offer expertise in landscape architecture, urban design and landscape planning. For a young practice, we already have a remarkable range of high profile projects in various stages of development and our portfolio is continuing to grow.

We are now looking to further expand our team by recruiting a Post Graduate Landscape Architect, ideally with some studio experience. You will need to be motivated with an eagerness to help further develop and expand the practice. A natural design flair combined with an advanced competency in the use of AutoCAD, REVIT, InDesign and Adobe Photoshop is also required.

As a relatively small practice, we can offer you the opportunity to work closely with a team of Landscape Architects and Directors who can share their expertise and help kick-start your career. We will actively support you on your Pathway to Chartership (P2C) as well as offer an exciting, wide-ranging work programme and a competitive salary. Our attractive offices are just a short walk from Bath city centre and provide a modern working environment with a friendly atmosphere.

For more details on our approach, the team and our current work, please visit [www.greenhalghla.com](http://www.greenhalghla.com)

To apply please e-mail [kerry@greenhalghla.com](mailto:kerry@greenhalghla.com) the following:

- Cover letter
- CV
- Succinct Electronic portfolio (.pdf) demonstrating conceptual work, Masterplanning, detailed design, hardworks and softworks detailing, and graphics.

**All applications to be received by 9.00 AM on Monday 26<sup>th</sup> June 2017.**

**Interviews to be held 3<sup>rd</sup>/4<sup>th</sup> July. Anticipated start in late August.**
