

Employment Opportunities: Landscape Architect

Applied Landscape Design is a full service Landscape Architecture, Urban Design and Landscape Management practice based in Oxfordshire.

The practice, established in 2002 by Kym Jones, are proud to offer all clients a valuable mix of multidisciplinary expertise, personal involvement, commitment to detail and a desire to deliver truly successful projects.

The team has a wealth of experience working with corporate, government and private clients to design parks and public gardens, streetscapes, roof gardens, commercial and corporate headquarters, retail developments and housing, health and education projects.

The Position

We have a vacancy in our Chesterton Office for a Landscape Architect to strengthen our existing team. We are looking for someone that is a highly motivated team player, who is technically minded, focused on attention to detail and right first time delivery, with strong communication skills.

Training & Professional Development

We encourage our staff to develop their personal and professional skills and Landscape Architects will be supported throughout their training. Successful applicants will have the opportunity to be directly involved in a comprehensive range of high profile schemes providing an excellent footing for progression on the LI's Pathway to Chartership.

Duties & Responsibilities

- Design, development and consultations
- Preparation of drawings, reports and contract documents
- Production of presentation materials
- Site surveys, feasibility studies, assessments and inspections
- Support of other members of staff
- Liason with multidisciplinary teams

Qualifications & Experience

- Applicants should have a Degree, Post Graduate Diploma or Masters qualification, plus a years experience in Landscape Architecture or an associated discipline
- Good presentation skills are essential, as well as the ability to prepare technical and working drawings

- Experience in AutoCAD, SketchUP, Adobe Creative Suite or similar programs is desirable
- Ability to organise own work schedule and meet key deadlines
- Strong detailing skills and understanding of technical issues
- Awareness of current trends, sustainable design and material properties

Location

The advertised position will be based at Applied Landscape Design, The Threshing Barn, Bignell Park Barns, Chesterton, Nr. Bicester, Oxfordshire OX26 1TD. The office has good links to London: Bicester to Marylebone approx. 45 mins by train.

Salary & Benefits

We believe that to attract the best we should offer excellent rewards. The successful candidate will enjoy a competitive salary based on service and delivery, which will be based on 37.5 hours per week.

- 20 days holiday, plus statutory days
- Start dates can be negotiated (spring/summer 2014)
