Reference: DE-001867

Landscape Architecture

Winchester, Bristol

Choosing to start your career with Atkins is more than just selecting where you want to work. It's about investing in your future and working with like minded individuals to produce some truly inspirational projects.

As one of the world's leading multi-disciplinary engineering consultancies, the Atkins Design & Engineering division works with both UK and International Clients to plan, design and enable some of the most challenging and complex building and infrastructure projects in the world.

The Design & Engineering division has around 1000 staff in the UK who provide their expertise in Landscape, Architecture, Civil, Structural, Mechanical and Electrical Engineering; Surveying; and Programme and Project Management to multiple Clients within the UK and overseas.

Due to an increase in workload an exciting opportunity has arisen to join our Landscape Design team in Atkins Bristol regional hub. The position will provide you with a great opportunity to work on multiple projects of varying scales and complexity both within the UK and overseas. Our Landscape Design team provide design and Landscape & Visual Assessment services for a variety of schemes including schools and colleges, new highway projects, flood defence works, major infrastructure schemes and commercial and residential projects in partnership with our architectural group.

You will be expected to work towards professional chartership through the Pathway to Chartership (P2C) Landscape Institute programme, mentored by one of our senior Landscape Architects. You'll be part of a great team, one that will provide you with the support you need to develop and excel at every step in your career. You will be reporting to Nick Rowson, head of Landscape at Atkins in Bristol, but you will be expected to work under the guidance of others in our team and may be required to work in other of our offices in the South West and Wales or on secondment into our client's offices. On occasion work commitments may require you to travel overseas.

Training

Atkins develops individuals through a portfolio of training and development activities designed to help you make the best of your abilities and talents. These are reviewed with individuals through an annual appraisal process. We actively support staff in achieving corporate membership of relevant institutions.

Rights to Work

The UK Government have taken steps to reduce net migration to the UK by limiting the number of overseas workers from outside the EEA coming to the UK for employment. Please note that whilst we are able to consider applications from overseas workers from outside the EEA (who require a Tier 2 (General) visa) we can only employ them if we can provide evidence that there are no other suitable candidates for this vacancy from inside the EEA.
