

LANDSCAPE DESIGNERS WANTED

We are a growing team of Landscape Designers working on a range of great projects; a new cultural quarter in an old **Jelly Baby factory**, new market towns, urban squares and spaces and a major new football club training ground are just a few of the things we are currently working on. We work seamlessly with our masterplanning colleagues to deliver great places across the UK.

We have a **vacancy** for a newly qualified Landscape Architect with **design flair** and ambition to join our team working from our shiny new offices in Reading. It's a great opportunity to work on a range of projects and kickstart your career.

Interested?

Drop me a line with some samples of your work or give me a call.
