

Graduate and Year Out Employment Opportunities

We are a central London based practise primarily focussed on design but with a growing portfolio in planning related commissions. Landscape Institute Award winning projects that you may be familiar with include Three Mills Green (2012) National Maritime Museum (2013) and Rathbone Market (2014). We are also currently delivering one of London's most exciting new pieces of public realm, The Thames Path stretching from Battersea to Lambeth Bridge. For further details of projects visit our website at www.churchmanlandscapearchitects.co.uk.

If you are enthusiastic, keen to learn and interested in working in London then send a CV together with three copies of work and/or links to a portfolio to j.lorinstein@churchmanla.co.uk.
