Graduate Vacancies

We have a vacancy for one, possibly two final year graduate landscape architects at our Filkins office set in Brenda Colvin's garden in the West Oxfordshire Cotswolds.

Colvin & Moggridge is a long established practice with a small team of dedicated landscape architects working on a wide range of projects. We provide interesting and varied work, pathway mentoring, opportunities for career progression, and a great workspace which includes a plot in our walled vegetable garden!

We are looking for bright, enthusiastic employees with good graphic skills, a working knowledge of CAD (we use Vectorworks) and the ambition to create beautiful landscapes.

We pay a competitive salary dependent on ability and experience, together with a range of other benefits.

To find out more please contact Mark or Clare before April 30th at filkins@colmog.co.uk or call us on 01367 860225
