## Summer Internship

### Who we are

Fira is a nationally recognised practice of landscape architects, urban designers, masterplanners and architects with a people-centric ethos. Over the past four decades our pioneering approach to design – with our emphasis on sustainability and wellbeing – has strengthened our position as one of the country's leading landscape design practices.

Based in Birmingham, we work throughout the UK and overseas on a wide range of projects. Our team is built around talented and dedicated landscape architects who have a real passion for creating inspirational environments.

The Fira Summer Student Program is an excellent opportunity for university students to learn, grow and have real-life design experiences.

We encourage graduate and post-graduate students of Landscape Architecture or Urban Design to apply for the internship which will be for 2 months starting in July 2016.

### About the Program

At Fira, we believe that the environment we live in affects our behaviour, our health and our state of mind, which is why we strive to create beautiful places that enrich people's lives.

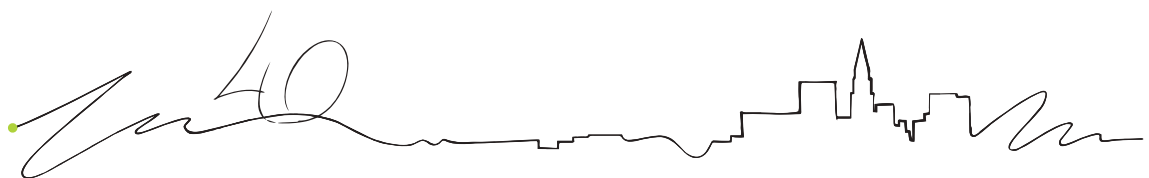

We take projects from their initial inception, through every stage of design development, before they are handed-over to the client.

We welcome you to join us in Birmingham as we shape the places that inspire others.

Each applicant must submit the following information to [mail@fira-la.com](mailto:mail@fira-la.com) by 2nd May 2016.

Submission Requirements:

- Letter of Interest
  - CV
  - Letter of recommendation from your tutor
  - Portfolio (max 10 pages & no larger than 20mb)
- Please send questions via email to [mail@fira-la.com](mailto:mail@fira-la.com).

celebrating 40 years of design excellence.
