

Graduate Landscape Architect

Are you a graduate / undergraduate looking for part time work during or after completion of a course of study? Do you have a working knowledge of landscape and visual impact assessment?

Are you competent in AutoCAD and Photoshop with a desire to learn new software? (ie digital terrain modelling software). Do you have good written, graphical and verbal communication?

We can offer you **superb experience** in a beautiful area of the UK – in the centre of Windermere with flexible work conditions and coaching as well as the benefit of a full range of work experience at an early stage in your career. We are seeking a **Graduate Landscape Architect** to work with us in assisting and developing schemes for large to small scale schemes.

Specific tasks would include:

- to provide project and graphical support for a range of schemes;
- to assist in landscape design by the preparation of presentation drawings, schedules and specifications for landscape schemes; and
- to assist in visualisations.

About Us: UK Landscape Architects, Galpin Landscape Architecture is a professional landscape architecture practice based in the beautiful Lake District offering full landscape design / landscape and visual assessments services.
