

Summer Vacancy 2-4 months

AutoCAD / Graphics Technician

Corylus is a small multidisciplinary planning and environmental design consultancy located in the Cotswold village of Yanworth. Our office is 12 miles south east of Cheltenham with limited public transport, applicants must therefore have their own transport.

Job Description for AutoCAD / Graphics Technician

Candidates should be enthusiastic and self-motivated, with previous experience in graphic presentation work relating to landscape architecture, architecture, planning or allied professions. The appointed applicant will assist the Company's Landscape Architects and Planning Consultants with design and presentation work relating to a variety of projects including residential, commercial, minerals and renewable energy development.

Core responsibilities and abilities should include the following:

- To prepare drawings and plans, photomontages, 3D visualizations and other illustrative material in support of planning applications, presentation work and contract documentation.
- To assist in the preparation of illustrated reports, brochures, information leaflets and marketing materials.
- To have knowledge and experience in the use of the following software packages:
 - AutoCAD
 - Adobe Creative Suite (Photoshop, Illustrator and In-Design)
 - Sketch-up(Experience of other draughting / technical software may be advantageous)
- The ability to undertake 'freehand' drawing and artwork (would be advantageous, but not essential).

Post: Temporary AutoCAD and Graphics Technician for 2 – 4 months during summer 2017

Working Hours: Full time / Part-time work negotiable.

Remuneration: Negotiable, Dependant on experience.
