

# year out students wanted

Year out students are key members of our successful, friendly practice and we are seeking new landscape architecture students to join us from summer 2015.

Hankinson Duckett Associates (HDA) prides itself on the experience it offers year out students. For many years, HDA has given the opportunity for students to fully engage with the widest possible scope of our varied profession. We genuinely try to avoid treating year out students as 'CAD monkeys'!

As a year out student at HDA you will be immersed, at all stages, in project work including assessment, masterplanning, management plans, urban design, design and implementation, local and strategic planning, and inquiry evidence. You will also be involved in HDA's extensive ecology and arboricultural work, including surveys, assessment, restoration, management plans and inquiry evidence.

A year at HDA will broaden your knowledge of the landscape profession to areas which may not have been covered in depth by your university courses. Five of our previous year out students have since returned to HDA full-time, having completed their university courses.

Our pleasant, open plan offices are situated near the river Thames, surrounded by picturesque Oxfordshire towns and villages, yet within easy reach of the city of Oxford to the north, and Reading to the south. For more information about our practice see our website at [www.hda-enviro.co.uk](http://www.hda-enviro.co.uk)

The successful applicants will have a degree in Landscape Architecture/Design, and proven graphic skills. Knowledge of AutoCAD and Adobe software is desirable, although software training can be provided. Having the use of a car would be advantageous.

If you are interested in applying, email or post your CV and examples of your work to Simon Elswood at the address below, before the closing date for applications which is Monday 29 June 2015. Interviews with suitable applicants for at least one of the available positions may be arranged for convenient times prior to the closing date.
