

year out students wanted

Year out students are key members of our successful, friendly practice and we are seeking new landscape architecture students to join us from September 2014.

Hankinson Duckett Associates prides itself on the experience it offers year out students. For many years, HDA has given the opportunity for students to fully engage with the widest possible scope of our varied profession. We genuinely try to avoid treating year out students as 'CAD monkeys'!

As a year out student at HDA you will be immersed, at all stages, in project work including assessment, masterplanning, management plans, urban design, design and implementation, local and strategic planning, and inquiry evidence. You will also be involved in HDAs extensive ecology and arboricultural work, including surveys, assessment, restoration, management plans and inquiry evidence.

A year at HDA will broaden your knowledge of the landscape profession to areas which may not have been covered in depth by your university courses. Five of our previous year out students have since returned to HDA full-time, having completed their university courses.

Our pleasant, open plan offices are situated near the river Thames, surrounded by picturesque Oxfordshire towns and villages, yet within easy reach of the city of Oxford to the north, and Reading to the south. For more information about our practice see our website at www.hda-enviro.co.uk

The successful applicants will have a degree in Landscape Architecture/Design, and proven graphic skills. Knowledge of AutoCAD and Adobe software is desirable, although software training can be provided. Having the use of a car would be advantageous.

If you are interested in applying, email or post your CV and examples of work to the address below and feel free to give one of us a call if you need further information. The closing date for applications is Monday 22 September 2014.
