

Year Out/ Post Graduate Landscape Architect

An exciting and unique opportunity to join a new business providing landscape services within an established architectural and urban design company in Coventry. IDP employs over 60 professionals and support staff, and offers collaborative solutions through responsible and innovative design ideas, creating buildings and places that enhance daily living. We are looking to grow a landscape team with talented landscape architects who have enthusiasm and creativity to contribute to the future of this young company, with an exciting and diverse project portfolio and excellent career prospects. www.weareidp.com

The candidate will need to have completed a degree in Landscape Architecture at an LI accredited University. The role will involve the full spectrum of landscape services from planning applications and LVIA to masterplanning, concept design and detailed specification. The candidate should be highly motivated and willing to work within a multi-disciplinary team and help meet project deadlines. Strong design and communication skills are necessary, and an enthusiasm for innovative ideas and high-end graphics.

The candidate must have a good working knowledge of Photoshop/Illustrator, In Design, AutoCad and experience of Sketch-Up to produce high quality illustrations and documents. We also use Keyscapes and Plant Partner for detailed plant specification and experience of this would be beneficial.

In return, we offer an exciting office environment, competitive salary, training opportunities and future career development.

To apply:

Please provide a covering letter, CV and electronic portfolio by email for the attention of Kevin Charsley, Director of IDP Landscape, to:
