

landscape projects

Landscape Projects is looking for a recent graduate to join our award-winning team based in Manchester.

From our studio you will work on exciting projects, from major urban regeneration initiatives with new streets, squares and parks, to social housing, conservation and art projects. And perhaps find time to enter competitions, too.

We work with excellent clients, architects, engineers and artists. If you're a designer who wants an opportunity to make a difference, find out what Landscape Projects can offer.

Apply by 4 August, sending your CV and examples of work, to post@landscapeprojects.co.uk

Landscape Projects is an equal opportunities employer.
