

STUDENT POST

Morgan Henshaw is a Landscape Institute Registered Practice established by Hilary Morgan CMLI in 2011. Over the last few years the practice has been commissioned on a range of projects: *Landscape and Visual Impact Assessment (LVIA), Highway Landscape Design, Landscape Management Plans, Garden design, Commercial Landscape Design (infrastructure, schools, housing offices and leisure)*- a broad range of private practice expertise.

Morgan Henshaw collaborates with ecologists and arboriculturalists and also provides environmental co-ordination services to clients (including EIA, CEMPs and environmental management strategies). Many projects involve close working with design teams comprising architects, engineers, quantity surveyors and project managers.

I am currently working from an office studio in Usk Monmouthshire and draft in freelance support when required however I am looking for assistance in the office with the preparation of CAD drawings-the applicant must be fully conversant with Auto CAD LT 2015 and Microsoft Office software. The work is varied and the successful applicant will gain a range of landscape experience under my supervision.

I am offering two days a week for a 3 month period at my office in Usk-however if work load allows this could be extended by mutual agreement. Start date is negotiable but is likely to be from April 2015 onwards. Hourly rate is to be agreed.

If you are interested or wish to know more about the vacancy please contact me.
