

# WE'RE HIRING

**We are looking for motivated graduates / year out students to assist us in our Newcastle, Edinburgh, Shrewsbury and Bristol offices**

You will have a natural ability to conceptualise and visualise your design ideas through hand drawn and digital media as well as a working knowledge of graphic presentation packages such as Adobe Creative Suite, 3DS Max and AutoCAD. Good communication, report writing skills, proficiency in Microsoft Office applications and a willingness to learn in the areas of GIS / Revit would be desirable.

SLR's landscape section works across a wide range of business sectors and has achieved more than 25 national and international awards for excellence. The successful candidate will gain experience in our specialist services which include education, public realm design, residential masterplanning and environmental impact assessment.

**Our approach** is meticulous, and frequently takes advantage of the latest technology such as interactive 4D graphics to visualise design options and how a scheme may be phased, or GIS and BIM technology to help sift through constraints and opportunities enabling these to be creatively assimilated around a development.

**We offer** a competitive salary and welcome applications from ambitious individuals. The successful candidate will expect to develop their own experience through actively contributing to SLR's award-winning portfolio. The team has a diverse range of projects and can provide opportunities to work alongside several of the UK's leading experts.

**What to submit** - email your CV and Portfolio as a PDF (max 15mb) to Bridget Anderson: [banderson@slrconsulting.com](mailto:banderson@slrconsulting.com)

**Closing date for applicants - 1<sup>st</sup> June 2016**
