

Chris Bodle

Our contemporary landscapes and cityscapes, across the world are generated through a fascinating mix of social, political, economic, cultural and natural forces. By making very focussed, tactical interventions, often simply and cheaply, we can channel these powerful processes to make better, more sustainable environments on a surprisingly big scale.

Free Public Lecture
Tuesday 16 February 2016

18:45, Room TC001 (FCH Campus)
University of Gloucestershire, Cheltenham
