

The Environment Partnership (TEP) GRADUATE LANDSCAPE ARCHITECT

We are looking for a creative and enthusiastic landscape architect to join the design team in our growing London studio, based in Southwark.

You will have a post-graduate qualification in Landscape Architecture, Architecture or Urban Design and you may have a year or two subsequent experience in a consultancy environment.

The Environment Partnership (TEP) is an award-winning environmental consultancy providing landscape architecture, ecology, environmental assessment and arboricultural services to clients in the private, public and third sectors.

TEP was established in 1997 to provide independent high-quality designs and advice with a strong emphasis on personal service.

TEP offers professionals from a wide range of disciplines who work together to identify practical solutions on complex projects. We believe in the power of teamwork, both in the way we organise ourselves, and in the way we work with our clients and the communities affected by the project.

As we have grown as a business, we have always challenged ourselves to explore new and better ways of caring for the environment. Our environmental management system is externally accredited and we are committed to continual improvement of our own performance, by reducing waste and the use of energy in the office and on our travels.

The work you will be doing will include conceptual and detailed design work for new residential and mixed-use developments, preparation of supporting visualisations and graphic material, with the potential for some work on landscape and visual assessments of significant development projects.

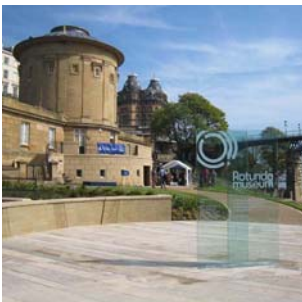

We expect strong graphic and presentation skills and a sound knowledge of AutoCAD and Adobe creative suite.

This is an exciting opportunity to build your career in a growing practice with a very diverse portfolio of projects including ecology, EIA, housing, infrastructure, parks, civic spaces and archaeology.

Please contact recruitment@tep.uk.com for further information and an application pack.

Closing date for applications is 16th June 2015.

If you would like to know more please contact the e-mail address above to ask for an informal chat with Nicola Hancock.
