

# Graduate Landscape Surveyors

## The Opportunities

TEP is the Homes and Communities Agency's (HCA) National Green Estates Consultant and assists with the management of the government's surplus land portfolio awaiting development in England. TEP is seeking to recruit two suitably qualified Graduate Landscape Surveyors to sit within TEP's Gateshead and Market Harborough teams assisting the other Landscape Managers, Arboriculturists and Managing Agents working on the Homes and Communities Agency's sites. The opportunity may also involve working on other projects with the wider team of consultants across TEP.

## About TEP

TEP is an award-winning multi-disciplinary environmental consultancy employing environmental planners, landscape architects and urban designers, landscape managers, ecologists and urban foresters and other professionals working on a wide-ranging portfolio. TEP is run by 3 Directors and employs around 130 professional and technical staff. Our head office is in Warrington, with a further three offices in Market Harborough, Gateshead and South London. We also employ home-based staff in other parts of the country. We are all passionate about creating quality places for the benefit of people, nature and business.

Our client base is very diverse and also includes Forestry Commission, United Utilities, National Grid, many Local Authorities, National Trust, major energy infrastructure firms, house builders, Groundwork Trusts and a number of Community Forests. Our green infrastructure work takes us across the British Isles. Please look at our website [www.tep.uk.com](http://www.tep.uk.com) to see the breadth of our commissions.

## The Posts

Both the Graduate Landscape Surveyor roles would be full time posts, one based in the Market Harborough office and the other in our Gateshead office, working primarily as part of a survey team on a project called Procura. The survey team play a critical role in TEP's overall management of the Homes and Communities Agency (HCA) national land portfolio and the role involves regular site surveys, data management, organisation of mitigation works and preparation of Arc View (GIS) plans.

The closing date for applications is Tuesday 5<sup>th</sup> May 2015.
