

Urban Designer / Master Planner

to be based in Bournemouth on a fixed term contract of 12 months

- Strong design and drawing skills
- Good communication skills
- Experience of the following software would be desirable;
 - Vectorworks/AutoCAD
 - Adobe InDesign
 - Adobe Illustrator
 - Sketchup
- Urban design qualification (Dip UD/MAUD) would be desirable

Our multi-disciplinary Urbanism team is seeking to expand its capacity to meet a growing demand for our master planning services and require an enthusiastic and creative Urban Designer / Master Planner to join us.

Our team have the creativity, flair and experience to be at the forefront of designing the urban extensions and new settlements of tomorrow. In addition we have an exciting range of town and city centre projects throughout the UK. In recent years we've been instrumental in securing consents for new places in Cambridge, Milton Keynes, Colchester and Greater London. Our work ranges from exciting high level

concepts through to implementation and delivery of town centre and green field housing sites.

We are particularly interested in applications from graduates or urban designers with 1 – 2 years experience. The successful applicant would initially support our Senior Urban Designers and Technical Directors but have the drive and enthusiasm to develop their own career further.

Applications from individuals who have undergraduate degrees in Architecture, Urban Planning and Landscape Architecture will all be considered.

Are you interested in us?
