

# Role Description – Graduate Landscape Architect, Infrastructure - Landscape & Public Realm Team, Birmingham/Tewkesbury.

<b>Job Title: Graduate Landscape Architect</b>	<b>Job Location: Birmingham/Tewkesbury</b>
<b>Business Stream: Infrastructure</b>	<b>Division: Landscape/Public Realm</b>
<p>WSP, through its combination with GENIVAR, is one of the world's leading professional services firms, working with governments, businesses, architects and planners to provide integrated solutions across many disciplines.</p> <p>We provide professional consultancy services to transform the built environment and restore the natural environment with expertise ranging from environmental remediation to public realm improvements, from engineering iconic buildings to designing sustainable transport networks and from developing the energy sources of the future to enabling new ways of extracting essential resources.</p> <p>We have 14,500 employees including, landscape architects, ecologists, engineers, planners, project managers, technicians, environmental experts and other specialists, based in more than 300 offices, across 35 countries, on every continent.</p> <p>We are currently seeking a recently qualified Graduate Landscape Architect to integrate into our existing team that is split between the Birmingham and Tewkesbury offices. Applicants must be able to take responsibility for a wide variety of tasks in a busy and diverse working environment and make day to day decisions in accordance with their experience and capability.</p> <p>The successful candidate will be joining a passionate and motivated team established in delivering landscape architectural, public realm and environmental co-ordination solutions in support of major infrastructure, rail and private sector projects within our business and to external Clients. Opportunities exist for the successful applicant to be creative and imaginative, demonstrating a flair for sustainable design. Currently, our Client base ranges from Local Authorities, Consortium Partners and Joint Ventures, the Highways Agency, Private Developers and Rail.</p> <p>The position will include landscape design, specification and assessment, but essentially the individual must be able to demonstrate an ability to deliver high quality design solutions related to both large and smaller public realm improvements schemes with the support and guidance of the wider Team.</p> <p>WSP offer first class opportunities and support for early career professionals.</p>
